Product Details: RS PRO Horn Speaker, 30 W, Metal, IP66

Do you need to deliver broadcasts in a public space or noisy environment? RS PRO's round metal horn speaker transmits a high-quality sound in settings including factories or commercial premises. You can use it indoors and outdoors, as it's made from durable weather-resistant metal.

The speaker's IP66 ingress protection rating means it's sealed against debris such as dust or dirt and can withstand high-pressure water jets. With dimensions of 263 mm in depth and 266 mm in diameter, its sound pressure level is 109 dB. A 250 Hz to 16 kHz frequency response range means it can tolerate a wide sound range and broadcast it effectively.

This horn speaker comes with a swivel U-bracket, so it can be simply positioned and pointed in your required direction. As well being used in industrial settings, you'll find horn speakers everywhere from railway stations to schools.

Features and Benefits

- Horn speaker
- Frequency response of 250 Hz to 16 kHz
- Depth of 263 mm
- Horn diameter of 266 mm
- Sound pressure level of 109 dB
- IP66 rating – dust-tight, withstands powerful water jets
- Nominal rated power of 30 W

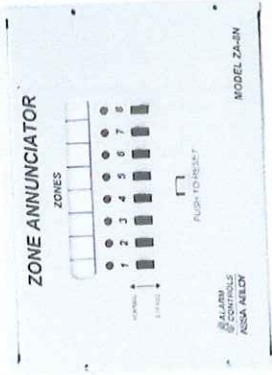

RS PRO 15W Grey Horn Speaker, 250 Hz → 16 kHz, IP66
