## Republic of the Philippines Southern Luzon State University Project Management Office Lucban, Quezon

**PROJECT TITLE:** Geowaterscan at SLSU Tiaong Campus **PROJECT LOCATION:** Brgy. Lalig, Tiaong, Quezon

**OWNER:** Southern Luzon State University

**PROJECT DURATION: 60 CD** 

#### SCOPE OF WORKS

- The Contractor shall conduct a preliminary review of the site layout, including boundaries, access routes, and surface conditions to plan for efficient equipment deployment and coverage.
- 2. The Contractor shall gather and analyze any available geological, hydrogeological, or topographical data relevant to the site to inform the survey design and interpretation.
- 3. The Contractor shall conduct non-invasive geophysical survey using electrical resistivity, VES (Vertical Electrical Sounding), or appropriate methods for groundwater detection.
- 4. Process and analyze the collected data using specialized software to ensure accurate results.
- 5. Interpret the findings to determine groundwater depth, soil moisture levels, and any potential risks to the site.
- 6. The Contractor shall prepare the following reports and deliverables in three (3) copies (Printed and PDF coy). The final report shall not be limited to the following:
  - a. Methodology and equipment used
  - b. Groundwater depth and soil moisture maps
  - c. Interpretation of subsurface water conditions
  - d. Recommendations for further geotechnical or hydrogeological investigations if required.
  - e. Geotagged Photographs
