set	Advance Patient Care with Ostomy	1
	Dimensions and Weight: Size: 43" x 22" x 12" Weight: 40 Lbs (82 Lbs Dimensional weight)	
	Features: a full-body design that allows for bathing and bandaging procedures, with interchangeable genitalia to support gender-specific care. It has eyes that can open and close, as well as realistic eyes for ophthalmic exercises. A functional urethral passage and bladder enable catheterization practice, while removable dentures allow oral care training. Its soft, lifelike skin covers the face, hands, and feet for a more realistic feel, and it includes an otic canal for ear care procedures. The model supports NG/OG tube feeding and gastric suction, as well as tracheostomy care. It also has a realistic vagina and cervix to allow douching and pap smear practice. With fully articulating joints, it can be positioned naturally, and it comes with detachable internal tanks and a waist that bends for easier storage. Additional features include a wig for hair care exercises, colostomy and ileostomy stomas for irrigation training, and a latch system that securely seals the ostomies to the internal tanks.
