

Annual Accomplishment Report 2022

Project	Benefits Granted	Status
1. Agricultural Production	Financial P486,763.90	Ongoing
2. Clonal Project	Financial P373,225.00	Ongoing
3. Banahaw Botanical Garden	Maintenance	Ongoing
4. Mushroom Chili Garlic	Financial 6,720.00	Ongoing
5. Development of eStore	6 drafts Clinical Psychology Fundamentals in Lodging Operations A Guide to Practical Dressmaking Electronics 101 Food Selection and Preparation Managers' Handbook on Outsourcing	Ongoing
6. Aquasilviculture	131.5 kls Sold	Ongoing

Cleaning and grass cutting at Brgy. Caldong, Sampaloc, Quezon

Planted 500 sticks of Cassava at Brgy. Caldong Sampaloc, Quezon

Cleaning Fish Pond at Brgy. Caldong Sampaloc, Quezon

Receiving Sanitation Equipment for Sanitation Project

Activities February 24, 2022 Conduct Seminar on Layout and Design

Blessing of New Build Greenhouse

Participate at SLSU Foundation Day and Arrangement of the Stage

Maintenance at Livestock, Ornamental and Crops. Harvesting of livestock, crops and vegetables

Accompany the visitor from Bulacan State University Headed by Dr. Cecilia N. Gascon at Rubber Tree Plantation in Ayuti Campus and Talaga Plantation at Nagsinamo Lucban, Quezon.

Livestock

A. Poultry

1. Daily routine. Feed the chicken and cleaning of surrounding's.

Total numbers of chicken: 77 Heads

2. Daily routine. Feed the pigs and cleaning of surrounding's.

Total numbers of pigs: 11 Heads

Meat Processing Repacking and Sealing of Native Pork Longganissa

Feeding of Native Chickens and Pigs

Repaired Pigpen

Pastured Carabao

B. Crops

1. Planted and harvested Pechay
2. Harvested 61 kls of Squash
3. Planted and harvested of Eggplant
4. Harvested Pole Sitaw 26.6 kls
5. Planted Tomato, Singkang, Mustard and Sayote

C. Others

1. Grass cutting at the Rubber tree area
2. Weeding of forest tree
3. Prepared of foods in STRASUC SLSU Official and Delegates
4. Prepared stage for Graduation Ceremony

Maintenance and Harvested of Eggplant

Sitao direct seed sowing

Tomato seed sowing

Maintenance of Nursery

Pick up of Luya at Brgy. Caldong Sampaloc, Quezon

Flower Arrangement for Laboratory School Graduation

Prepared Stage for Graduation Ceremony

Participate SUC Fair SM MOA Pasay City June 28-30 and July 1, 2022

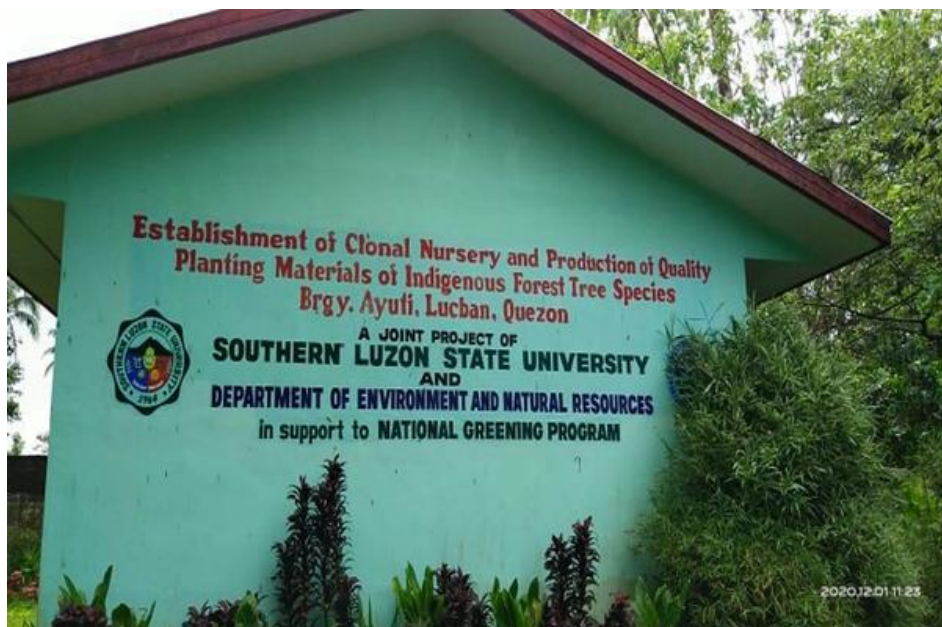

Marketing of Products

Participated EA Activity at Laiya San, Juan Batangas July 13-14, 2022

SLSU NGP Clonal Forestry Seedling production project For. Eraldwin A. Dimailig | Project Leader/Focal Person Edilberto A. Juarez | Project Staff January to June 2022

I. Clonal Facility

Facilities and Equipment	Area (in sq.m)	Production Capacity	
		Per cycle	Per year
Office and storage/laboratory room	75		
Rooting facility	550	20,000	40,000
Recovery/pre-conditioning facility	500	20,000	40,000
Potting Area (old CAg poultry house)	75	16cu.m.	32cu.m.
Hardening Area (open space)	2,055	90,000	180,000
Hedge Garden (stock plants/stem cuttings)	875	17,500	52,000

II. Stock Plants at Hedge Garden

Stock plants (hedge source)			
	Species	Count	Type
1	White Lauan	587	wildlings
2	Makaasim	286	wildlings
3	Molave	454	seedlings
4	Yakal Kaliot	164	wildlings
5	Batikuling	334	seedlings
6	Kalumpit	41	wildlings
7	Almaciga	4	wildlings
8	Banahaw Igem	9	wildlings
9	Agojo	1	wildlings

A total of 2,107 stock plants are maintained for the collection of stem cuttings required for clonal propagation, Bagu adlau, Lubeg and Malabayabas are the new species in the hedge garden which are both flowering native tree species.

10	Mindanao	107	wildlings
11	Yakal Saplungan	6	wildlings
12	Malak-malak	50	wildlings
13	Palosapis	64	wildlings
14	Pamitoyen	8	seedlings
15	Mala kalumpit	13	seedlings
16	Lubeg	4	seedlings
17	Bago adlau	2	seedlings
18	Malabayabas	2	seedlings
	TOTAL	<u>2,134</u>	

III. List of Native Forest Tree Species Produced that are available as planting
stocks.

Hardening Area		
Species	Count	Type
1 Narig	5	wildlings
2 Toog	215	clones
4 Batikuling	300	clones
5 Palosapis	37	clones
6 Igem bilog	50	clones
7 Salinggogon	200	seedlings
8 White lauan	900	clones
9 Molave	300	clones
10 Talakatak	200	wildlings
11 Dulit	10	clones
12 Bayag usa	150	clones
13 Lanite	10	clones
Total	2,402	

Recovery Area		
Species	Count	Type
1 Bahai	850	wildlings
2 Lamog	10	wildlings
3 Putian	20	wildlings
4 Philippine maple	3,000	wildlings
5 Kasau-kasau	20	wildlings
6 Manggasinoro	6,000	wildlings
7 Lipoteng gubat	2,000	wildlings
8 Manggachapui	2800	wildlings
9 Arangen	1,900	wildlings
10 Gisok-gisok	500	wildlings
11 Dangula	300	wildlings
12 Banaba	200	wildlings
13 Palak-palak	110	wildlings
14 Kamali	250	wildlings
15 Batikuling	1,000	clones
16 Lipote	200	wildlings
17 Balitbitan	800	seedlings
18 Malagaitmon	50	wildlings
19 Yakal kaliot	650	wildlings
20 White lauan	1,100	clones
21 Makaasim	600	clones
22 Putian	30	wildlings
23 Kamagong	400	wildlings
24 Sayo	170	wildlings
25 Nato	150	wildlings
26 Kalumpit	350	wildlings

27 Molave	200	clones
28 Toog	50	clones
29 Talakatak	500	wildlings
30 Bahian	200	wildlings
31 Bagtikan	300	wildlings
32 Palosapis	250	wildlings
33 Bignay	100	wildlings
34 Tamahu	50	wildlings
35 Lanutan	30	wildlings
36 Binoloan	250	wildlings
Total	20,390	

SLSU Clonal Nursery was featured in Manila Bulletin under the Agriculture Section.

SLSU NGP Forestry Clonal Nursery was included in the presented project in the 8th GO GREEN SUMMIT that won the 1st Prize recognition.
